SUMMARY

I am a self-motivated, highly passionate, and hardworking fresher seeking an opportunity to contribute my skills and knowledge to a challenging organization, driving its growth and success.

EDUCATION

BSc in Computer Science
YCIS college , Satara - 2023
CGPA - 7.71

HSC
Jr. college Rahimatpur - 2020
PERCENTAGE   -   62 %

SSC
Dr.V.G. Paranjpe, Rahimatpur   - 2018
PERCENTAGE   -   83 %

WORK EXPERIENCE

- **CodeX Tech-Hub , Satara**

  Flutter Developer Intern

  July 24 - Dec 24

As a Junior Flutter Developer, I build cross-platform mobile applications for iOS and Android using Flutter and Dart.
My responsibilities include designing intuitive and visually appealing user interfaces, identifying and resolving issues in the code to ensure optimal performance, and applying logical problem solving skills to create efficient, bug-free code.

Full Stack Developer Intern
Jan 24 - June 24

As a Full Stack Developer, I contribute to the development and maintenance of both front-end and back-end solutions. I create interactive UIs with React.js, handle server-side logic with Spring Boot, and optimize database interactions using MySQL for efficient web applications.

TECHNICAL SKILLS

- HTML || CSS || Tailwind CSS
- JavaScript || React
- Flutter || Spring-boot
- MySQL || Firebase || Firestore
- Git-GitHub || Vs Code || Eclipse

PROJECTS

- **E-SHOPAPP**

  React + Tailwind CSS + Firebase + Firestore

  - E-shopapp is a fully-functional e-commerce application built using React for the front-end, Tailwind CSS for styling, and integrated with razorpay for payment processing (TEST MODE).
  - This app allows users to browse products, add items to their shopping cart, and complete transactions securely using Razorpay's payment gateway.

- **WORLD DATA-HUB**

  React + Tailwind CSS + REST API

  - WorldDataHub is a web application that fetches and displays detailed information about countries around the world, using data from the REST Countries API.
  - The application is built using ReactJS for the front-end and styled with Tailwind CSS for responsive and modern design.

- **MOVIES APP**

  Dart + Flutter + Rest API

  - The Movie App is a media discovery platform designed for users to explore and learn about various TV shows and movies.
  - By integrating the TVMaze API, the app allows users to search for shows based on keywords, providing real-time results with rich details.
